# Note to users

About these slides

- Slides are designed to help users across Oregon present and share county population and benchmark data:
    - Population by county, age, race/ethnicity; and population change
    - County data (for 31 of 91 benchmarks) as of August 2007
        - *See http://benchmarks.oregon.gov*
- Sample interpretations are given in the notes panel of all data slides ("Normal" view). The 2007 slideshows will be the **last** where sample interpretations are included.

Interpreting the data and using the show

- Users are encouraged to use sample interpretations as a guide when presenting.
- Details regarding the data are offered online through the benchmark report generator (see above url); refer to module 3 for a complete description of the data.
- Each slide compares your county's data with the statewide average and either a rural or urban county average. (Urban counties are: Benton, Clackamas, Columbia, Deschutes, Jackson, Lane, Linn, Marion, Multnomah, Polk, Washington and Yamhill.)
- For some benchmarks, data for counties with small populations may have frequent ups and downs because single events will have a large impact on overall rates.
- With 66 slides, this is a very long slide show. *Except for modifying the data*, users may delete or rearrange slides, or use them in other shows based on the needs and interests of their audience.
- Please acknowledge the Oregon Progress Board for any content used from this show.

Thank you!
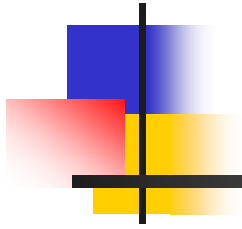

LANE COUNTY
Is it making progress?

A slide show on Lane County
based on
Oregon Benchmarks County Data
August, 2007
Oregon Progress Board
http://benchmarks.oregon.gov

Introduction

- What is the Oregon Progress Board?
- What are Oregon Benchmarks?
- Categories of Benchmarks
- Where can I find Benchmark data?

What is the Oregon Progress Board?

- A state board

- Created by the Legislature in 1989

- Responsible for monitoring the state's 20-year strategic vision, *Oregon Shines*

- Oregon Benchmarks are the measures used to monitor progress.

OREGON
Progress Board
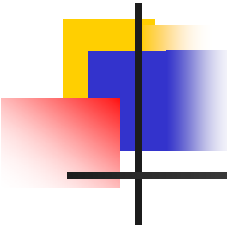

What are Oregon Benchmarks?

- 91 societal measures of progress towards three *Oregon Shines* goals:

    1) Quality jobs for all Oregonians

    2) Engaged, caring & safe communities

    3) Healthy, sustainable surroundings

- 31 of the 91 benchmarks have county-level data and are shown here for Lane County.

Statutory reference: (ORS 285A.168)

This show is organized by benchmark categories

- Economy
- Education

Goal 1: Quality jobs for all Oregonians

- Civic Engagement
- Social Support
- Public Safety

Goal 2: Engaged, caring and safe communities

- Community Development
- Environment

Goal 3: Healthy, sustainable surroundings

Complete list of 91 Oregon Benchmarks:

http://benchmarks.oregon.gov

Where can I find benchmark data?

- Generate a custom report on specific benchmarks, showing both statewide and county data at: http://benchmarks.oregon.gov
- View county reports and generate a county specific benchmark report at: http://www.oregon.gov/DAS/OPB/CountyData.shtml

But first, some data about Lane County's population

- Population by county
- Population change over time
- Population by age
- Population by race
- Percent that is Hispanic
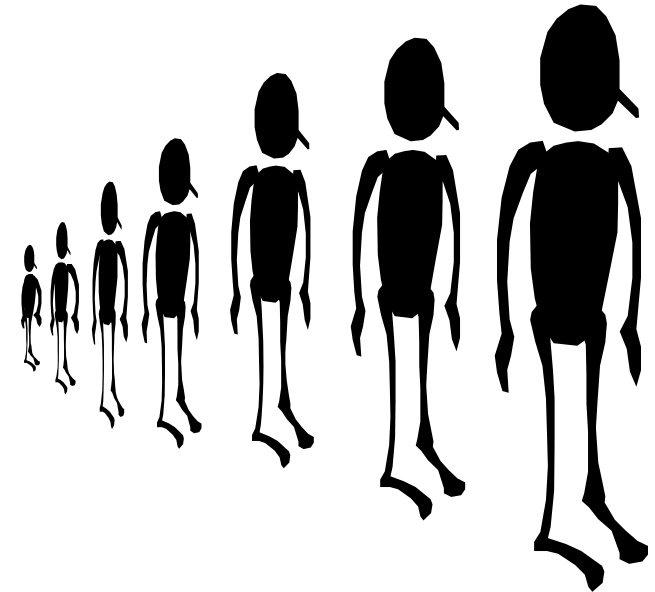

Population by county, 2006
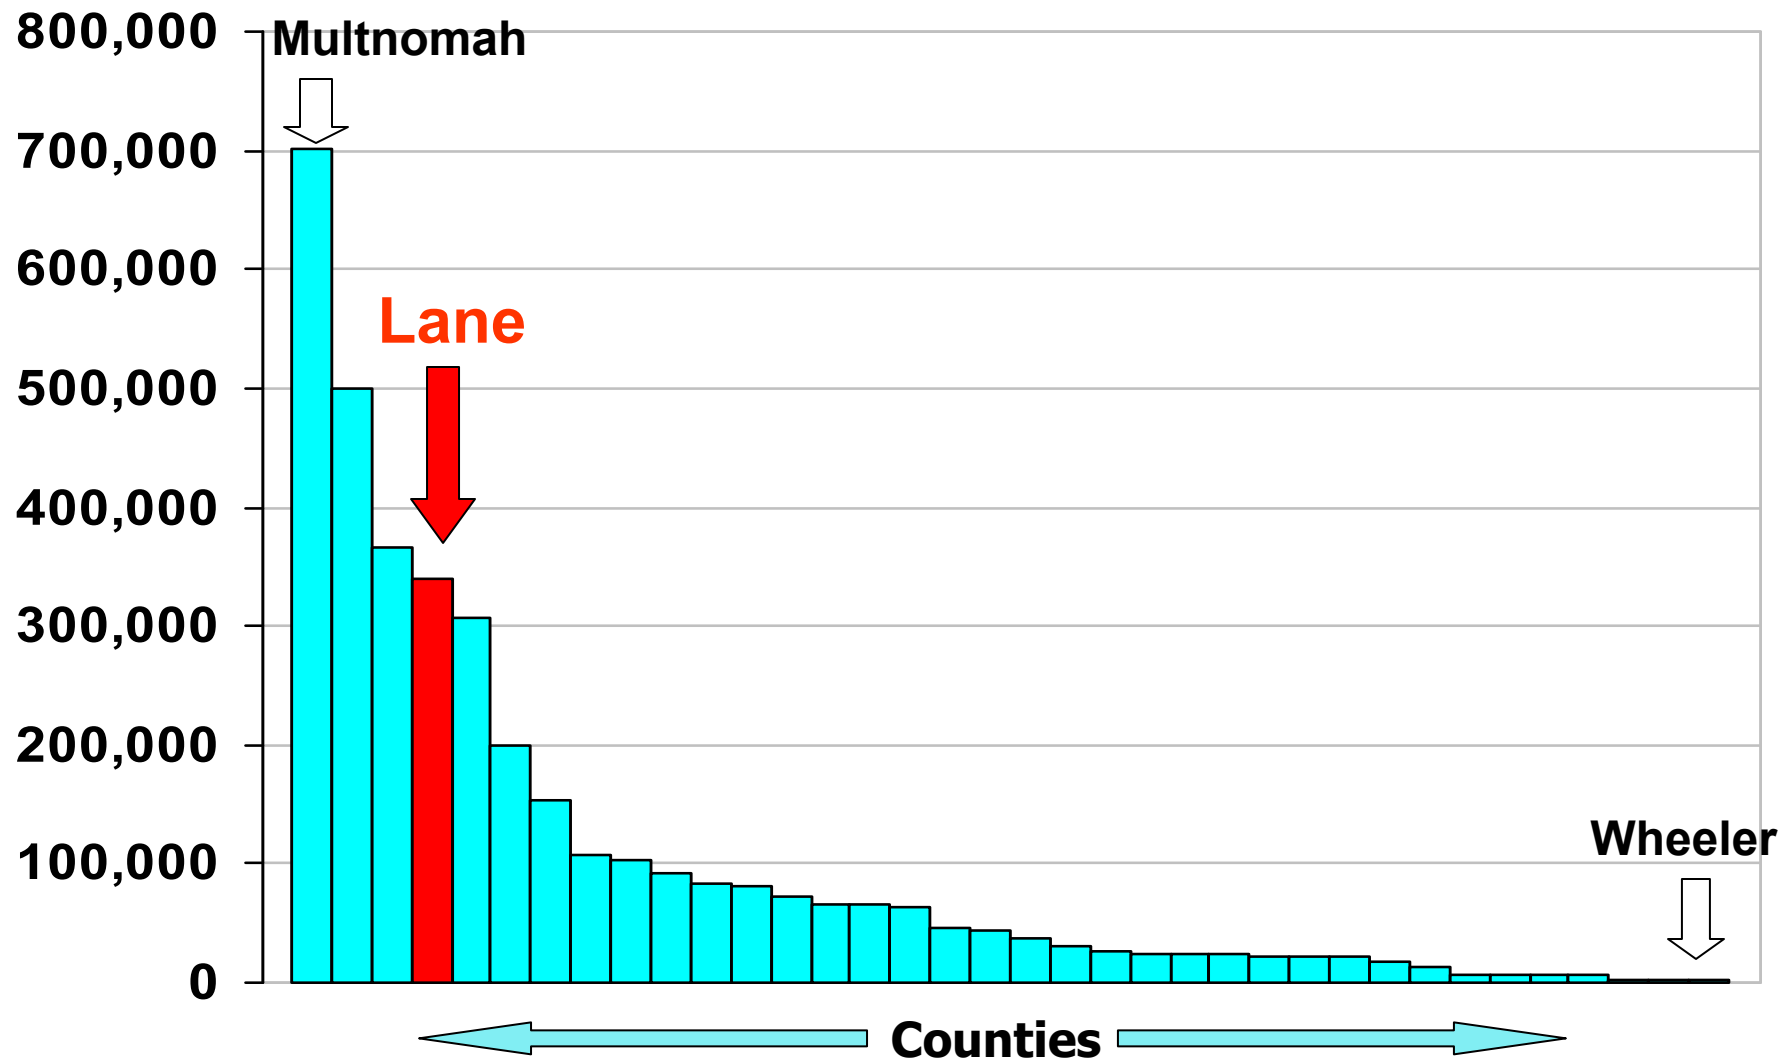

Source: Portland State University Population Research Center (Certified Estimates)

Percent and source of change in population, 1990-2000 and 2000-2006

Legend: ■ Natural Change (births - deaths)   ■ Migration

Categories: State / Lane (1990 - 2000), State / Lane (2000 - 2006)

Y-axis: 0% to 25%
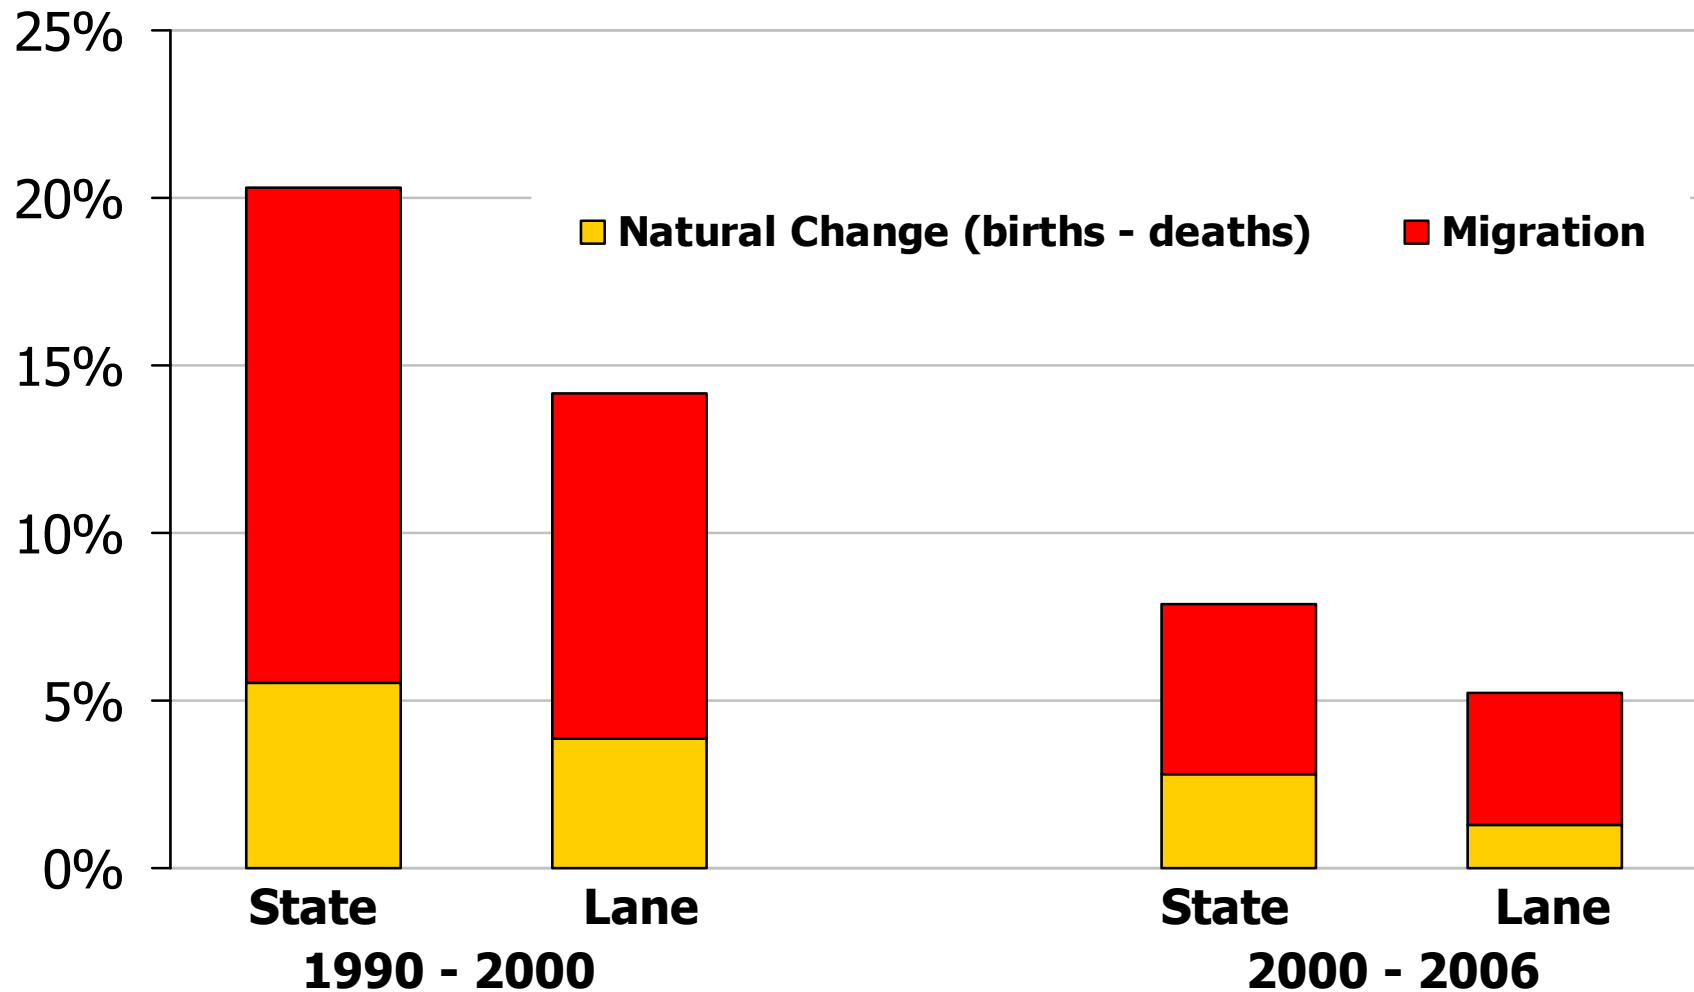

Source: Portland State University, Population Research Center

Percent of population by age, 1996 and 2006

Source: Portland State University, Population Research Center; and U.S. Census
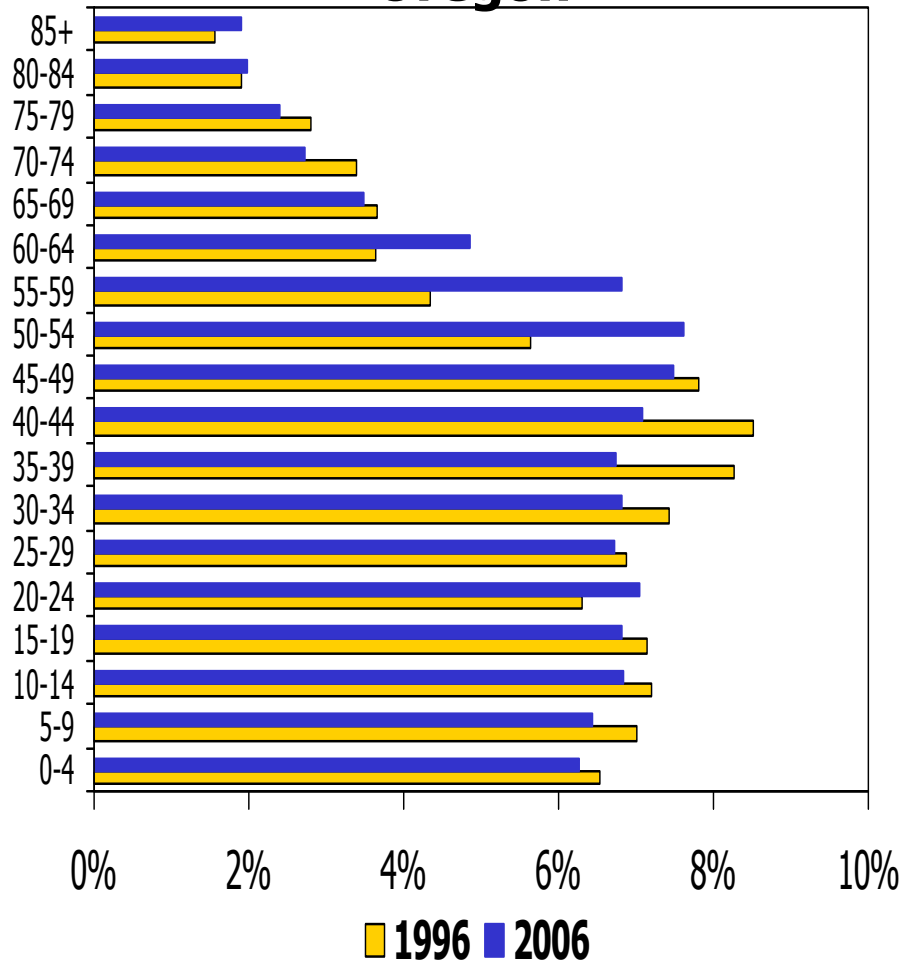

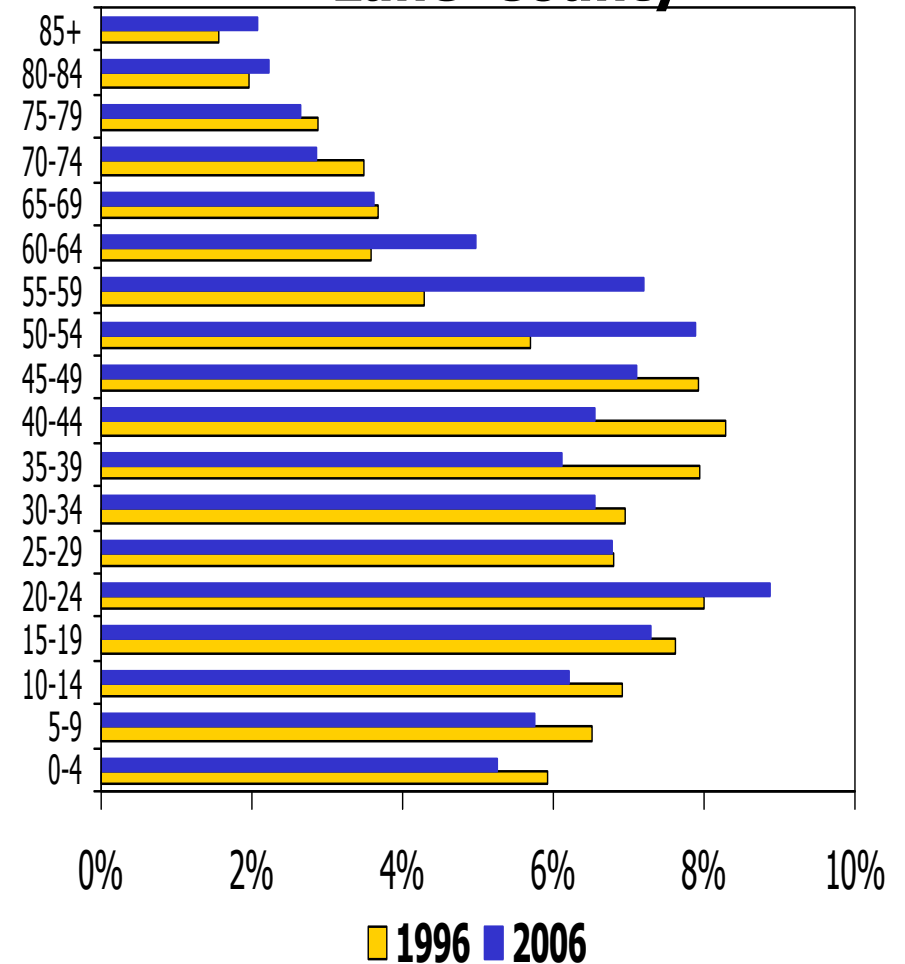

Population by race, 2000 and 2006
(Hispanics, an ethnic group, are represented in all racial categories).

Legend:
- White
- African-American
- American Indian/Alaskan Native
- Asian
- Native Hawaiian/Pacific Islander
- Two or more races

White percentages:
- Lane, 2000: 93.2%
- Lane, 2006: 92.1%
- Oregon, 2000: 91.4%
- Oregon, 2006: 90.5%
